**Tired of figuring out HR on your own? Let us help you take the guesswork out of compliance, people management, and operational HR.**

**Consult HR** is a monthly membership service by **HR MOM LLC** designed specifically for small business owners, nonprofit leaders, and internal HR staff who need expert support—without the full price tag of an in-house HR department.

**Consult HR** is a digital support program designed for business owners and internal leads who manage HR responsibilities without the benefit of a full-time department. For a flat monthly rate of \$99, members gain access to a comprehensive HR resource library that includes templates, forms, policies, and training materials designed to support day-to-day operations. This self-guided platform provides tools for onboarding, compliance, employee relations, and documentation, allowing users to build or enhance their internal HR systems at their own pace. The platform is updated regularly to reflect changes in labor laws and HR best practices, giving users peace of mind and up-to-date support.

In addition to the resource library, members also have the option to book hourly consulting sessions with an HR MOM team member at the current rate of \$285/hour. These sessions are designed for deeper guidance around immediate or complex issues such as disciplinary action, policy development, benefits questions, or structural planning. Consult HR is ideal for small teams and emerging businesses that want the expertise of seasoned HR professionals without the commitment of a full-service engagement.
